WORK EXPERIENCE

Ernst & Young, LLP   **New York City, NY**
Technology Consultant – Financial Services Organization   *September 2021 – Present*
- Provide expert advice to clients in the financial services industry to execute digital transformations, implement agile methodologies, streamline data reporting processes, and carry out ESG commitments
- Analyze technology operating models, identify areas of improvement and present solutions to clients
- Develop strategies, roadmaps and training materials for clients on implementing agile methodologies
- Establish governance structures that align with agile implementation strategies and enterprise execution
- Socialize and coach teams on agile to ensure best practices and alignment of client strategy
- Curate educational materials and facilitate client workshops to showcase agile product offerings
- Partner with executive directors and senior managers to create POVs that tell a story to clients
- Drive the kick-off for two teams piloting the execution of recommended agile transformation strategies
- Research the financial services industry's alignment of reporting of climate change commitments to the Task Force on Climate-Related Financial Disclosures (TCFD)
- Enable internal senior leadership to make data-driven decisions by publishing PowerBI dashboards on the financial services industry's current and projected state of climate change commitments
- Collaborate with PMO on reporting project statuses, project risks and next steps of action
- Assess clients' ILST assumptions for liquidity products (Management Actions, Trapped Liquidity, Prime Brokerage, Asset Monetization, Intraday) and recommend solutions to ensure industry standards are met
- Analyze the process of 2052a reporting and data flows and provide expertise on areas for automation
- Document gap analyses between the current state and target state of clients' data models
- Organize project artifacts, manage timelines for project teams and send status reports to clients
- Assist on systems integration projects, specializing in connectivity between SAP and Microsoft Office
- Follow project management principles such as preparing project plans and calculating budgets

Technology Advisory Intern – Financial Services Organization   *June 2019 – August 2019*
- Experienced in project management including preparing client timeline presentations, developing onboarding material and reconciling billable hours
- Prepared Software Development Life Cycle and Project Management Office documents templates
- Assisted with audit of manual journal entry volumes

Deloitte   **Bangkok, Thailand**
Strategy and Operations Consulting Intern   *18 June 2018 – 15 August 2018*
- Led a business process improvement project by aggregating the telecommunication industry's finance and accounting KPIs and review against their performance targets
- Developed a cost-benefit analysis of an ERP system implementation and provided measurable insights
- Designed an As-Is workflow diagram for a warehouse process of a consumer goods company
